I have been working on a story all day long - involving CEI scores, ESG, regulatory capture, corporatism and transgender “trends.” Between doing farm chores and packing for a three day, three city trip - I just ran out of time. So, the essay just hasn’t been finished it yet.

Tomorrow is another day. I will get it finished, edited and wrapped up then.

In lieu of an essay, I am posting a rather incredible interview that I did, with some amazing patriots that I had the honor of being involved in a few days ago.

PANEL EXCLUSIVE: Dr Malone, Vallely, Trombly & Col Larry Kaifesh Sho

From the Rumble website:

"Dr. Robert Malone, Ret. Army Major Gen. Paul Vallely and Ret. Lt. Col. Dave Trombly join The Constitutional Colonel Larry Kaifesh Show to discuss the Biden Administration's egregious destruction of military personnel's constitutional rights. The attack on our military was from the top down, starting with Commander in Chief Biden, all the way down to career military leaders who exposed themselves as spineless by allowing and promoting NON-FDA approved experimental vaccine products to be used in the government's illegal and destructive forced mandates of our brave military people.

Dr. Robert Malone, an American physician and biochemist whose early work focused on mRNA technology, pharmaceuticals, and drug repurposing research, helped get the word out to the masses during the COVID-19 pandemic urging them to not take the experimental mRNA vaccines. Although many in the military did their homework and researched facts surrounding the sketchy vaccine products that were being forced upon military personnel through Biden's unconstitutional vaccine mandates, a large population of the military personnel opted to cooperate with the government and take the experimental vaccines. One included a high-ranking military leader who recently outed himself as among those tragically vaccine injured, suffering debilitating symptoms following a second jab. When this high-ranking military leader alerted others above him of the injury, he was urged to keep his mouth shut because they still needed to mass distribute the vaccines to more military personnel.

The story is verified by Lt. Col. David Trombly "T-bone," an Author, Grounded and Cured (Wellness Marketing Corps, 2021). LtCol., USMC (Ret), 25 years; F/A -18 Hornet Pilot; trainer, student naval aviators. Motivational speaker / Chaplain, Pensacola Ice Flyers (professional hockey team). Chaplain, Cpl J.R. When he invented the original mRNA vaccine technology as a medical and graduate student in the late 1980s, Robert Malone could not have imagined that he would become a leader in a

movement to expose the dangers of mRNA vaccines that billions of people have received—too often without being informed of the risks.

For voicing opposition to the “mainstream” narrative, Dr. Robert Malone was censored by Big Tech and vilified by the media. But he continues to speak out and alert the world to the web of lies that we have all experienced. From vaccine safety and effectiveness to early treatments like ivermectin, to lockdowns, masks, and more, Dr. Malone is the signature dissident voice telling the other side of the story about COVID, the role of corporate media, censorship, propaganda, and the brave new world of transhumanism promoted by the World Economic Forum and its acolytes.

What effect did the COVID policies have on lives, livelihoods, and democracies? How is it possible that the lies spread by governments would persist, and that our institutions would fail to correct them? *Lies My Gov’t Told Me* takes a hard look at these questions and illustrates how data, information, and psychology have been distorted during the pandemic.

Governments intentionally weaponized fear to mold behavior. The media smeared anyone who objected to the narrative. And Big Pharma—aligned with larger globalist interests exemplified by the likes of Bill Gates and the World Economic Forum—had captured the agencies that are supposed to regulate it long before the pandemic began. Dr. Malone explores these perverse connections between Pharma, government, and media, and tells us what can be done about it.

With contributed chapters from other leading thinkers, such as Dr. Paul Marik and Professor Mattias Desmet, and drawing upon history, psychology, and economics, *Lies My Gov’t Told Me* looks at COVID from numerous angles. Never satisfied with a simple answer or easy solution, Dr. Malone proposes multiple action plans for a better future.

Dr. Malone calls on each of us to find our own solutions, our own ways to resist the control of fascist, corporatist, and totalitarian overlords. If we are to step out of the darkness—toward a world that defends the principles of the Constitution, upholds individual rights, and honors free speech—we all must play a part in the transition.”
