Communism will help us rediscover what it means to be PROUD Americans.

If we are successful in liberating our country from the Bankster oligarchs and their agents in Washington DC, we will not only rebuild the American Nation, we will deliver the American Civilization.

The corrupt ruling elites are trying to trick you into believing there is nothing special about being an American other than what you can consume or who you can hate.

They are simultaneously presenting two options for the future:

The fascist liberal vision of an atomized culture, devoid from responsibility, tradition, civic duty, and committed to hedonism, rejection of all norms and sovereignties; and the neo-Nazi vision of elimination of all minorities, occultism, and filthy criminality and barbarism.

Both of these visions are too small. Both of these vision are weak and rotten. Both of these visions aim to exterminate our humanity.

Moreover, they do not represent the bigness of the American Spirit. But I'm here to tell you that there is good news!

The American Communist, who loves their nation, is building something bigger—

Not the expansion of foreign capitalist exploitation, but the recognition of the birth of the American CIVILIZATION born out of our shared history. Born out of the concrete interests of the American PEOPLE.

We are on a mission to help America find its place in the modern world, so that when we say "we're proud to be American" we feel deep it in our hearts and souls.
