WASHINGTON ([The Borowitz Report](#))—Claiming that the “enemies of Christmas” are taking their war against the holiday to “a whole new level,” Representative Marjorie Taylor Greene warned of a conspiracy to use “state-of-the-art Jewish space lasers” to shoot down Santa.

“If you want to win the war on Christmas, first you take out the person who makes Christmas possible,” Greene said. “As I speak, Jewish space lasers are being trained on the North Pole.”

Noting that NORAD tracks Santa’s route each year, she urged those military officials monitoring his progress “to be on the lookout for any incoming of a space-laser-ish nature.”

In her most incendiary claim, she asserted that the Rothschild banking family is masterminding the anti-Santa plot “because they don’t worship Santa the way regular people do.”

“The Rothschilds have already celebrated their own holiday with their little Rothschildren,” she said. “They call it the Festival of Lasers.”
