If Jews control Wall St. And central banks, why did Wall St. Bankers finance Hitler's military buildup?

Why were they sitting on the board of the most important German industries like I.G. Farben (and most others) even during WW2?

Why did Hitler gather up ambassadors of international finance capital to fund his electoral campaign?

Why were international capitalists meeting with Hitler as far back as the early 20's?

Why did global central banks (BIS) continue to work with, finance, and collect payments from Nazis during WW2?

Why did the Nazis continue to pay international central banks the debt that the City of London artificially propped up in the 1920's? Weren't the Nazis campaigning against war reparations? Why did they continue to pay them in a new, disguised form?

Why were the two biggest financial capitalist families in America - Morgan's and Rockefellers, non-Jewish? What were they doing working with the Nazis? Why were all the German industrial cartels that funded the Nazis startups propped up by JP Morgan and Wall St.?

Why didn't the allies open up a second front? Wasn't defeating Hitler Britain's number one goal? Why didn't they help the Soviets do it?

Why did the Bank of England willingly transfer all of Czechslovakia's gold to the Nazis?

Why was the Soviet Union the only country to warn about Hitler's destructive intentions? Why did Britain and France appease Hitler while rejecting all attempts by the Soviets to form security pacts against rising German aggression?

If the Jews controlled England, surely they would have done everything to stop Hitler!

Why is it that in the postwar period, the card carrying Nazi German captains of industry maintained all their wealth and power?

Why did Nazi officials retain positions of political power in West Germany, and why were so many welcomed into NATO's commanding positions?

Why did the Reichsbank retain all power and privileges in the postwar period?

If "the Jews" were so powerful, why were they powerless to prevent this?

Here is the truth: International banksters propped up Hitler to loot the Soviet Union's wealth, and use it to finance their New World Order.

Their plan was to keep 90% of the world in colonial slavery, and return serfdom for the European and American working classes.

And were it not for the heroic Soviet Union, Klaus Shwab and Bill Gate's dreams would have come true nearly 80 years early.

We all know that there are wealthy and powerful Jews among the international ruling class. But the facts are conclusive beyond doubt: They are a minority.

So who are those attacking and singling out Jews truly serving? Ask yourself that question.

There is a reason none of the rightists will debate me on this topic. The Right are not original and independent thinkers. None of their research was conducted independently.

I do not believe they are pushing this ideology independently.

Here is the likely truth:

Wealthy benefactors with Nazi sympathies, who likely have direct ties to German Nazism itself historically, created the modern "Dissident Right" as we know it.

And who knows how far the connections back to the real elites these benefactors go!
